

New Trash Collection Services

Beginning January 1st, 2012 Danville will use Casella for trash and recycle collection services.

New carts for Recyclables and Trash

Casella will be delivering new carts to all residents beginning December 19th. This will take a few days. Each residence will receive two carts, both wheeled and lidded: one for trash and one for recyclables. The recycle cart will have a different color lid.

Why two new carts?

More recycling equals less cost to taxpayers. Other towns that use two large carts have greatly increased recycle tonnage, saving taxpayer dollars and helping to preserve the environment.

What do I do with the Waste Management cart?

Waste Management (WM) will continue to collect everyone's trash and recyclables through the end of this year. The last week of December, whether your trash is collected on Tuesday or Wednesday, put your WM cart out to the curb on Tuesday, December 27th. The trash will be emptied, but leave your empty cart at the curb. It will take a few days for WM to collect all the empty carts.

When do I start using the Casella cart?

When you leave your WM cart at the curb for pick up by WM on Tuesday, December 27th, you may then begin using your new Casella carts when you empty the trash from your home. Curbside collection with Casella begins January 3rd (Tuesday) and January 4th (Wednesday) for trash and recyclables.

Same schedule as before?

Your trash pickup day will remain the same as it was with WM. But the first week of January will be a recycle collection week. We still have bulk pick-up days and hazardous waste collection dates. We will send a new calendar soon to all the residents.

If you have any questions, please contact the Selectmen's office at 382-8253, ext.4.
