

## NOTICE: PLEASE READ!

### **Important Changes in Curbside Solid Waste & Recycling Collection**

December 2008

Dear Danville Resident:

In order to better serve the Town of Danville, Waste Management will begin offering Single Stream Recycling to all residents as well as adjusting the current curbside collection schedule for solid waste and recycling. These changes will take effect in January of 2009.

**Updated Collection Schedule** – On this flyer, you will find a revised collection route schedule for the Town. We ask that you please take time to look over this information carefully. Effective **January 6<sup>th</sup>** curbside collection will follow this new schedule. **Please be sure to locate your street.**

- ❖ Curbside collections will NO longer occur on Thursday
- ❖ All collections will be made on Tuesday and Wednesday
- ❖ Residents currently collected on Tuesday and Wednesday may not necessarily continue to be collected on their current schedule, therefore it is important to locate your street on the list to determine your new collection day.

These changes are being implemented after discussions between Waste Management and the Town of Danville aimed at providing a greater level of service to residents while reducing the Town's overall solid waste costs.

**Single Stream Recycling** - Recycling will be made easier and more efficient for all residents. You no longer have to spend time sorting your recyclable materials into separate bins. **Now, ALL recyclable items can be placed in the same container** for easy curbside collection. Single Stream materials are sorted at a special facility and then recycled in their individual streams. **Residents may now also include any narrow neck/screw top plastic containers labeled #3 through #7 (no Styrofoam) in addition to the #1 and #2 plastics now accepted.** Label numbers for plastics are generally found on the bottom of the container. You may use a standard trash type container with a capacity of up to 36 gallons for all your recycling (labeled as "Recycling") or you may continue to use existing recycling bins.

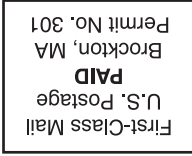

**Recycling will continue to be collected every other week.** Please follow the current recycling calendar to determine recycling weeks. Danville is currently recycling at a rate of 14%. We hope that by allowing residents to use larger containers to store and set-out recycling and eliminating the need to separate paper from commingled containers we will encourage you to recycle at a much higher rate. Every additional ton we recycle will save the town \$78.00! This doesn't sound like much until you realize that Danville spent over \$142,000 in waste disposal costs in 2007. Help us reduce our tax burden, **MAXIMIZE YOUR RECYCLING!**

**Bulk Waste** – Bulk item collections will be held three times in 2009. The April 18, 2009 date will remain the same as listed in your current calendar. The June date on the current calendar will be postponed until July 18<sup>th</sup> and the third and final bulk item collection will be scheduled for October 17, 2009.

We thank you for your time and patience as we make this transition. **As always you may contact Waste Management with any further questions regarding your collection at: 1-800- 847-5303.**

Sincerely,  
**Waste Management of New Hampshire, Inc.**
