

*Revised*

### Danville

The inhabitants of the Town of Danville in the County of Rockingham in the state of New Hampshire qualified to vote in Town affairs are hereby notified that the Annual Town Meeting will be held as follows:

**First Session of Annual Meeting (Deliberative Session)**

Date: Saturday, February 3, 2024  
Time: 10:00 am  
Location: 169 Main Street, Danville, NH  
Details: Community Center

**Second Session of Annual Meeting (Official Ballot Voting)**

Date: Tuesday, March 12, 2024  
Time: 8:00 am – 8:00 pm  
Location: 169 Main Street, Danville, NH  
Details: Community Center

#### GOVERNING BODY CERTIFICATION

We certify and attest that on or before 1/30/24, a true and attested copy of this document was posted at the place of meeting and at 169 Main Street, Danville, NH 03819 and that an original was delivered to Board of Selectmen, 210 Main Street, Danville, NH 03819.

**Article 2024- Choose all School District Officers for the year e**  
**02**

**Article 2024- Flood Plain Development Ordinance**  
**03**

To see if the Town of Danville will vote to amend the Danville Zoning Ordinance as necessary to comply with updated requirements of the National Flood Insurance Program. Specifically, this would replace the existing Article V Subsection H, Floodplain Development Ordinance with the following:

**ARTICLE V Subsection H**  
**H. FLOODPLAIN DEVELOPMENT**  
**ORDINANCE**

This ordinance, adopted pursuant to the authority of RSA 674:16, shall be known as the Town of Danville Floodplain Development Ordinance. The regulations in this ordinance shall overlay and supplement the regulations in the Town of Danville Zoning Ordinance and shall be considered part of the Zoning Ordinance for purposes of administration and appeals under state law. If any provision of this ordinance differs or appears to conflict with any provision of the Zoning Ordinance or other ordinance or regulation, the provision imposing the greater restriction or more stringent standard shall be controlling.

The following regulations in this ordinance shall apply to all lands designated as special Flood Hazard Areas by the Federal Emergency Management Agency (FEMA) in its "Flood Insurance Study for Rockingham County, NH" dated May 17, 2005, or as amended, together with the Flood Insurance Rate Map panels numbered: 360E, 370E, 378E, 379E and 390E, dated May 17, 2005, or as amended, which are declared to be a part of this ordinance and are hereby incorporated by reference. Amended 3/12/2002; 3/8/2005

**a. Definition of Terms:**

The following definitions shall apply only to this Floodplain Development Ordinance, and shall not be affected by, the provisions of any other ordinance of the Town of Danville.

“Area of Special Flood Hazard” is the land in the floodplain within the Town of Danville subject to a one-percent (1%) or greater possibility of flooding in any given year. The area is designated as Zone A and AE on the Flood Insurance Rate Map. Amended 3/12/2002; 3/2024

“Base Flood” means the flood having a one-percent (1%) possibility of being equaled or exceeded in any given year.

“Base Flood Elevation” (BFE) means the elevation of surface water resulting from the “base flood.” Added 3/2024

“Basement” means any area of a building having its floor subgrade on all sides. “Building” – see “structure”.

“Development” means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operation or storage of equipment or materials. Amended 3/2024

“FEMA” means the Federal Emergency Management Agency.

“Flood” or “Flooding” means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- i. the overflow of inland or tidal waters.
- ii. the unusual and rapid accumulation or runoff of surface waters from any source.

“Floodplain” or “Flood-prone area” means any land area susceptible to being inundated by water from any source (see definition of “Flooding”).

“Flood Insurance Rate Map” (FIRM) means an official map incorporated with this ordinance, on which FEMA has delineated both the special flood hazard areas and the risk premium zones applicable to the Town of Danville. Added 3/14/2000

“Flood Insurance Study” (FIS) means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e. mudflow) and/or flood-related erosion hazards. Amended 3/2024

“Flood Opening” means an opening in a

foundation or enclosure wall that allows automatic entry and exit of floodwaters. See FEMA "Technical Bulletin 1, openings in Foundation Walls and Walls of Enclosures." Amended 3/2024

"Flood Proofing" means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitation facilities, structures and their contents. Amended 3/2024

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic Structure" means any structure that is:

a. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

b. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

c. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

d. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

1) By an approved state program as determined by the Secretary of the Interior, or

2) Directly by the Secretary of the Interior in states without approved programs.

"Lowest Floor" means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such an enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.

“Manufactured Home” is as defined in Article II, “Manufactured Housing”, of this Zoning Ordinance. For floodplain management purposes the terms “manufactured home” and/or “mobile home” includes park trailers, travel trailers, and other similar vehicles placed on site for greater than 180 days. This includes manufactured housing located in a mobile home park, subdivision, or any other location in the Town of Danville. Amended 3/2024

“Manufactured Home Park” or “Mobile Home Park” is as defined in Article II, “Mobile Home Park”, of this Zoning Ordinance. For floodplain management purposes, this includes any parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale. Amended 3/2024

“Mean sea level” means, for the purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which base flood elevations shown on the Town’s Flood Insurance Rate Maps are referenced. Amended 3/12/2002; 3/2024

“100-year flood” – see “base flood”.

“New construction” means, for the purposes of determining insurance rates, structures for which the “start of construction” commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, new construction means structures for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and includes any subsequent improvements to such structures. Added 3/2024

“Recreation Vehicle: (1) built on a single chassis; (2) four hundred square feet (400 ft<sup>2</sup>) or less when measured at the largest horizontal projection; (3) designed to be self-propelled or permanently towable by a light duty truck; and (4) designed primarily not for use as a permanent dwelling, but as temporary living quarters for recreational, camping, travel or seasonal use.” Added 3/12/2002

“Regulatory floodway” means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without increasing the water surface elevation more than a designated height. Amended 3/12/2002; 3/2024

“Special flood hazard area” see “Area of Special Flood Hazard” Amended 3/12/2002; 3/2024

“Structure” means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

“Start of Construction” includes substantial improvements, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or part of the main structure.

“Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty percent (50%) of the market value of the structure before the damage occurred.

“Substantial Improvement” means any combination of repairs, reconstruction, rehabilitation, addition, alteration, or other improvements to a structure in which the cumulative cost equals or exceeds fifty percent (50%) of the market value of the structure before the “start of construction” of the improvement. The market value of the structure should equal: (1) the appraised value prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purposes of this definition, “substantial improvement” is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred substantial damage, regardless of actual repair work performed. The term does not, however, include either: (a) Any project for

improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or (b) Any alteration of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure." Amended 3/2024

"Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. Added 3/2024

"Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, (or other datum, where specified,) of floods of various magnitudes and frequencies in the floodplain. Amended 3/2024

**b. General Requirements**

i. All proposed development in any special flood hazard area shall require a building permit. When reviewing the permit application, the issuing authority shall take special note of the provisions of this Wetlands Ordinance to ensure the proposed development is in compliance. Added 3/2024

ii. The Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is located in a special flood hazard area, all new construction or substantial improvements shall:

1. be designed (or modified) and adequately anchored to prevent floatation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy,

2. be constructed with materials resistant to flood damage,

3. be constructed by methods and practices that minimize flood damages,

4. be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

iii. Where new or replacement water and sewer systems (including on-site systems) are

proposed in a special flood hazard area the applicant shall provide the Building Inspector with assurance that these systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.

iv. For all new or substantially improve structures located in special flood hazard areas, the applicant shall furnish the following information to the Building Inspector:

1. the as-built elevation (in relation to mean sea level) of the lowest floor (including basement) and include whether or not such structures contain a basement. Amended 3/2024
2. if the structure has been floodproofed, the as-built elevation (in relation to mean sea level) to which the structure was flood proofed. Amended 3/2024
3. any certification of flood proofing.

The Building Inspector shall maintain this information for public inspection and shall furnish such information upon request. Amended 3/14/2000

v. The Building Inspector shall not grant a building permit until the applicant certifies that all necessary permits have been received from those governmental agencies from which approval is required by federal or state law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334.

vi. 1) In riverine situation, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Bureau of the New Hampshire Department of Environmental Services and submit copies of such notification to the Building Inspector and Conservation Commission (CC), in addition to the copies required by the RSA 483-A:3. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector and CC, including notice of all scheduled hearings before the Wetlands Bureau (and notice of local wetlands hearings). Amended 3/14/2000; 3/12/2002; 3/2024

2) The applicant shall submit to the Building Inspector and Conservation Commission certification provided by a registered professional engineer, assuring that the flood

carrying capacity of an altered or relocated watercourse can and will be maintained.  
Amended 3/14/2000

3) Until a Regulatory Floodway is designated along watercourses, no new construction, substantial improvements, or other development (including fill) shall be permitted within Zone AE on the FIRM, unless it is demonstrated by the applicant that the cumulative effect of the proposed development, when combined with all existing, proposed and/or approved development, will not increase the water surface elevation of the base flood more than one foot at any point within the community. Amended 3/2024

4) The Building Inspector and Conservation Commission shall obtain, review, and reasonably utilize any floodway data available from Federal, state, or other sources as criteria for requiring that all development located in Zone A meet the following floodway requirement. Amended 3/14/2000

"No encroachments, including fill, new construction, substantial improvements, and other development are allowed within the floodway that would result in any increase in flood levels within the community during the base flood discharge."

vii. 1) In a special flood hazard area, the Building Inspector shall determine the base flood elevation in the following order of precedence according to the data available: Added 3/2024  
a. In Zone AE, refer to the base flood elevation data provided in the community's Flood Insurance Study and accompanying FIRM. Added 3/2024  
b. In Zone A, the Building Inspector shall obtain, review, and reasonably utilize any 100-year flood base flood elevation data available from any federal, state or other source including data submitted for development proposals submitted to the community (i.e., subdivisions, site approvals). Where a base flood elevation is not available or not known for Zone A, the base flood elevation shall be determined to be at least 2 feet above the highest adjacent grade. Amended 3/2024

2) The Building Inspector's base flood elevation determination will be used as criteria for requiring in zone A and AE that: Amended 3/2024

a) all new construction or substantial improvement of residential structures have the lowest floor (including basement) elevated to or above the base flood elevation; Amended

3/2024

b) that all new construction or substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the base flood level; or together with attendant utility and sanitary facilities shall:

Amended 3/2024

i. be flood proofed so that below the base flood elevation the structure is watertight with walls substantially impermeable to the passage of water; Amended 3/2024

ii. have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and

iii. be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section;

c) all manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the mobile home is at or above the base flood elevation; and be securely anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces; Amended 3/12/2019; 3/10/2020; 3/2024

d) for all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted provided they meet the following requirements: (1) the enclosed area is unfinished or flood resistant, usable solely for the parking of vehicles, building access or storage; (2) the area is not a basement; and (3) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwater. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two (2) flood openings having a total net area of not less than one square inch for every one square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot (1') above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwater.

Amended 3/14/2000; 3/2024

e) All recreational vehicles placed on sites within Zone A and AE shall either (i) be on the site for fewer than one hundred eight (180) consecutive days; (ii) be fully licensed, on wheels or jacking system, attached to the site only by quick

disconnect type utilities and security devices, and have no permanently attached additions; or (iii) meet all applicable standards of this ordinance and the elevation and anchoring requirements for "manufactured homes" in this ordinance. Added 3/12/2002; Amended 3/2024

c. Variances and Appeals

i. Any order, requirement, decision or determination of the Building Inspector made under this ordinance may be appealed to the Zoning Board of Adjustment as set forth in RSA 676:5.

ii. If the applicant, upon appeal, requests a variance as authorized by RSA 674:33, I, the applicant shall have the burden of showing in addition to the usual variance standards under state law: Amended 3/2024

1. that the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense.

2. that if the requested variance is for activity within a designated regulatory floodway, no increase in flood levels during the base flood discharge will result.

3. that the variance is the minimum necessary, considering the flood hazard, to afford relief.

iii. The community shall (i) maintain a record of all variance actions, including their justification for their issuance, and (ii) report such variances issued in its annual or biennial report submitted to FEMA's Federal Insurance Administrator. Amended 3/12/2002

iv. The Zoning Board of Adjustment shall notify the applicant in writing that:  
(i) the issuance of a variance to construct below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage; and (ii) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with a record of all variance actions. Amended 3/12/2002

Recommended by Planning Board 4-0

To see if the Town of Danville will vote to amend the Town of Danville Zoning Ordinance to remove the municipality from requiring reviews when doing work in the Historic District. Specifically, to change Article XIII.B.7 to read:

“7. It is unlawful for any person to excavate, construct, alter, repair, move or demolish any buildings, structure, site or improvement which lies within an Historic District, area or place, without first obtaining a Certificate of Approval from the Heritage Commission in the manner prescribed in this Article. Exceptions are declared in Section XIII.B.9.”

Recommended by Planning Board (6-0-0)

**Article 2024- Citizens Petition – Petition for Amendment to Zoning**  
**05**

To see if the Town of Danville will vote to amend the Town of Danville Zoning Ordinance to exempt Heritage Commission review for work on Emergency Lanes as defined by RSA 231:59-a. Specifically, this will add a new subsection (i) to Article XIII.B.9 as follows:

“i. All work authorized by the Selectmen on Emergency Lanes as established under RSA 231:59-a.”

Recommended by Planning Board (6-0-0)

**Article 2024- Operating Budget**  
**06**

Shall the Town of Danville raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$4,707,004.00. Should this article be defeated, the default budget shall be \$4,620,042.00, which is the same as last year, with certain adjustments required by previous action of the Budget Committee or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only.

Recommended by the Board of Selectmen for Operating Budget (4-1-0)  
Recommendation of Budget Committee for Default Budget (5-0-0)

**Article 2024- Highway Capital Reserve Fund**  
**07**

To see if the Town of Danville will vote to raise and appropriate the sum of Seventy-Five Thousand Dollars (\$75,000.00) to be added to the Highway Capital Reserve Fund for the purchase of future highway vehicles and equipment previously established.

Recommended by the Board of Selectmen (3-2-0)

Recommended by the Budget Committee (4-2-0)  
Estimated Tax Impact \$0.1274 per thousand

**Article 2024- Fire Dept. Capital Reserve Fund for Future**  
**08 Fire De**

To see if the Town of Danville will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000.00) to be added to the Fire Dept. Capital Reserve Fund for Future Fire Dept. Vehicle Purchases previously established.

Recommended by the Board of Selectmen (3-2-0)

Recommended by the Budget Committee (5-1-0)  
Estimated Tax Impact \$0.0849 per thousand

**Article 2024- Fire Department Personnel Protection**  
**09 Equipment Cap**

To see if the Town of Danville will vote to raise and appropriate the sum of Fifteen Thousand Dollars (\$15,000.00) to be added to the Protection of Personnel Equipment Capital Reserve Fund previously established for the future replacement of Self-Contained Breathing Apparatus (SCBA) to protect firefighters previously established.

Recommended by the Board of Selectmen (4-1-0)

Recommended by the Budget Committee (6-0-0)  
Estimated Tax Impact \$0.0255 per thousand

**Article 2024- Danville Infrastructure and Facility Non-**  
**10 Capital R**

To see if the Town of Danville will vote to raise and appropriate the sum of Twenty Thousand

Dollars (\$20,000.00) to be added to the Danville Infrastructure and Facility Non-Capital Reserve Fund previously established.

Recommended by the Board of Selectmen (5-0-0)  
Recommended by the Budget Committee (6-0-0)  
Estimated Tax Impact \$0.0340 per thousand

---

**Article 2024- Invasive Species Control Expendable Trust Fund**  
**11**

To see if the Town of Danville will vote to raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) to be added to the Invasive Species Control Expendable Trust Fund for the purpose of management and eradicating the milfoil infestation found in Danville's ponds/bodies of water previously established.

Recommended by the Board of Selectmen (5-0-0)  
Recommended by the Budget Committee (6-0-0)  
Estimated Tax Impact \$0.0170 per thousand

---

**Article 2024- Colby Memorial Library Infrastructure and Facility**  
**12**

To see if the Town will vote to raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) to be placed in the Colby Memorial Library Infrastructure Expendable Trust Fund for engineering, repair, and renovation of facilities and the upgrade of the Colby Memorial Library's infrastructure previously established.

Not Recommended by the Board of Selectmen (2-3-0)  
Recommended by the Budget Committee (6-0-0)  
Estimated Tax Impact \$0.0170 per thousand

---

**Article 2024- Capital Reserve Fund for Future Expansion of the H**  
**13**

To see if the town will raise and appropriate the sum of Five Thousand Dollars (\$5,000.00) to be added to the Capital Reserve Fund for Future Expansion of the Highway Garage previously established.

Recommended by the Board of Selectmen (3-2-0)  
Recommended by the Budget Committee (6-0-0)

Estimated Tax Impact \$.0.1274

**Article 2024- Municipal Mosquito Control Expendable  
14 Trust Fund**

To see if the Town of Danville will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000.00) to be added to the Municipal Mosquito Control Expendable Trust Fund established for the purpose of management and spraying for mosquito control previously established.

Recommended by the Board of Selectmen (5-0-0)

Recommended by the Budget Committee (5-0-1)  
Estimated Tax Impact \$0.017 per thousand

**Article 2024- Cemetery Capital Reserve Fund  
15**

To see if the Town of Danville will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000.00) to be placed in the existing Cemetery Capital Reserve for future cemetery expansion previously established.

Recommended by the Board of Selectmen (5-0-0)

Recommended by the Budget Committee (6-0-0)  
Estimated Tax Impact \$0.0017 per thousand

**Article 2024- Colby Memorial Library Expend Interest  
16**

To see if the Town of Danville will vote to raise and appropriate the sum of One Hundred One Dollars (\$101.00) to purchase books and authorize the use of that amount from the interest income earned from the library's checking account and to authorize the expenditure of those funds by the Library Trustees.

Recommended by the Board of Selectmen (5-0-0)

Recommended by the Budget Committee (6-0-0)

**Article 2024- Modification of Elderly Exemption  
17**

To see if the Town of Danville will vote to modify

the provisions of RSA 72:39-a for elderly exemption from property tax, based on assessed value, for qualified taxpayers, to be the following: for a person 65 years of age up to 74 years, Ninety Six Thousand Dollars (\$96,000.00); for a person 75 years of age up to 79 years, One-Hundred Thirty Seven Thousand Five Hundred Dollars (\$137,500.00); for a person 80 years of age or older, One Hundred Sixty Nine Thousand Dollars (\$169,000.00). To qualify, the person must have been a New Hampshire resident for at least three consecutive years, the person may own the real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for at least five years and the property must be the primary residence. In addition, the taxpayer must have a net income of not more than Forty Thousand Dollars (\$40,000.00) or, if married, a combined net income of less than Fifty Thousand Dollars (\$50,000.00); and own net assets not in excess of Eighty-Seven Thousand Five Hundred Dollars (\$87,500.00) excluding the value of the person's residence." This article shall take effect for 2024 property tax year.

Recommended by the Board of Selectmen  
(5-0-0)

**Article 2024- Hand Count of Presidential Election Ballots  
18**

To see if the Town of Danville shall vote to hand count the ballots for the Presidential Election of the United States by hand in the General Election. The official count of the Presidential Election shall be the hand count.

Recommended by the Board of Selectmen (4-1-0)

**Article 2024- Change Road Agent from Elected to  
19 Appointed**

To see if the Town will vote to change the Road Agent from an Elected to an Appointed position. To see if the town will vote to discontinue the elected road agent position and to require the selectmen to appoint a highway agent pursuant to RSA 231:62.

Recommended by Board of Selectmen (4-1-0)
